

Mirrabooka

The Waytrans package is a complete system designed to accommodate all types of commodity

Weighbridge Transaction System

Overview:

The weighbridge transaction system (Waytrans) has been designed to record transactions that pass over a weighbridge. These loads can be bulk, liquid or packaged. A cash sales module is available for the sale of packaged products. This application provides an extensive range of documentation that may be required for all stages of the process from order to delivery, for despatch and purchasing, to receipt for supply.

Features:

Despatching Operations

- ◆ Order entry
- ◆ Load validation on vehicle receipt
- ◆ Packing floor load scheduling
- ◆ Authorise load release
- ◆ Provides full despatch documentation on departure from weighbridge
- ◆ Email pickup schedule to carriers
- ◆ Full support for pallet control
- ◆ Export documentation produced

Receivals Documentation

- ◆ Manifest for incoming products when orders placed
- ◆ Order matching at weighbridge
- ◆ Full documentation produced on receipt
- ◆ Product analysis for quality evaluation

Cash Sales Module

- ◆ Point of sale for various products
- ◆ Supports quotas for customers
- ◆ Produces despatch documentation and invoicing

Despatch Schedule produced from orders

Quality level can be recorded automatically

Packaged goods can be sold on a per item basis

WayTrans – Despatch

Carrier Contractors can be scheduled and notified by email

Tare Weigh & Load Validation

On arrival at the weighbridge, the driver quotes his order number, which is validated before proceeding. The vehicle is tare weighed and a Load Authorisation Docket is produced.

Queue	Truck	Carrier	Time
158488	445-TYP	16	11:49
158486	RRR-676	1	11:49

Packing Floor Load

Load Schedule

A dynamic display provides a list of vehicles expected for the next 48 hours. It is ordered by the ETA time and provides a single line summary for each order. When a vehicle has arrived at the W/B, registration details, tare weight and order number, are displayed.

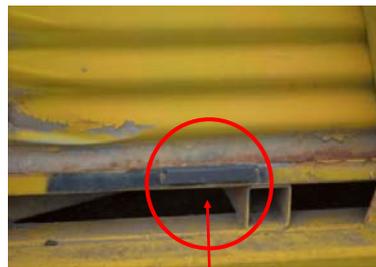

Amend/Acknowledge Load Details

Before each load is released, the packing floor personnel checks the loading details, amends where required, and authorises the load for shipment.

RFID Vehicle

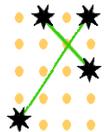

Identification available for known contractors

RFID TAG

CERTIFICATE OF CONFORMANCE

This product has been inspected and tested during manufacture according to the requirements of the certified quality system and was in conformity with the agreed specification.

To: Allied Bakers of Brisbane
Lot 7 No 304 Mill Drive
Brisbane

Certificate Number: 3309005
 Product Name: Caster Sugar
 Product Code: 9925
 Pack Size: 25kg
 Delivery Note Number: 190246
 Dispatch Date: 13.05.06-06-2003

Date/Batch Code(s): 06-06-2003/556712

Weighbridge Departure

- ◆ Check load is completed
- ◆ Gross weight is taken
- ◆ Despatch documentation is completed, including Despatch Docket, Certificate of Conformance and Load Audit Check

Pallet documents and Conformance Certificates produced.

WayTrans – Receivals

This system can be interfaced to an Automatic Weighbridge System

Can be interfaced to a range of devices, weighers, PLC, screen displays

Bulk Transaction W/B Operation

For the receivals transactions, two operations take place. The first weighbridge procedure is the gross weighing of the loaded vehicle when it arrives and the second is the tare weighing of the empty vehicle when it departs.

Gross Weigh Procedure

When the vehicle arrives, the driver provides the delivery details of the load. This information may have already been entered using a Load Identification Utility, which provides a set of supplier details for an order. If this number is quoted, all of the delivery details will be available.

Tare Weigh Procedure

Once the vehicle has been unloaded and arrives back at the weighbridge, it can be tare weighed.

A unique transaction number is generated for each receivals transaction. This reference number is useful for future enquiries.

Cash Sales Module

Products other than bulk can be handled by this package. These usually include items that are pre-packaged such as bags or drums, etc.
